Project Details	Date	Attendance:
Discussed client notes, functional requirements, and non-functional requirements. Created Github.	June 9, 2021	Manisha, Manjesh, Mitchee, Kyle, Haoxiang Hu
Brainstormed features to implement in the Program and created Version 1.0 of SRS document. Kyle worked on the Scope and Purpose. Evan Created some Use Cases 0-3. The group discussed and specified the Functional and non-Functional requirements of the program.	June 14, 2021	Manisha, Manjesh, Mitchee, Kyle, Haoxiang Hu
Manisha created and updated Schedule document. Kyle created Class Diagrams. Manjesh Created Use Case Diagrams. Manisha Created Sequence Diagrams based off of Evan's Use Cases. Mitchee updated client notes and SRS document.	June 16, 2021	Manisha, Manjesh, Mitchee, Kyle, Haoxiang Hu
Phase 1 Check in Requirements document Schedule document GitHub project link Meeting notes from client meetings	June 16, 2021	Manisha, Manjesh, Mitchee, Kyle, Haoxiang Hu
Organized SRS document and improved UML diagrams.	June 23, 2021	Manisha, Manjesh, Kyle, Haoxiang Hu
Phase 2 Check in Updated requirements document. Updated schedule document. Design document GitHub project link Meeting notes from client meetings	June 23, 2021	Mitchee, Manisha, Manjesh, Haoxiang Hu
Revised Class diagram to accommodate Server, Client, and GUI classes.	June 24,2021	Kyle
Revised Use Case diagrams and UML Sequence Diagrams	June 26, 2021	Manisha, Manjesh, Haoxiang Hu
Phase 3 Check in: Requirements document Schedule document GitHub project link Meeting notes from client meetings All requirements and diagrams are very complete. All versions including previous versions are now available on your GitHub repo. Meeting minutes are clear and dated. All versions including previous versions are now available on your GitHub repo.	June 30, 2021	Manisha, Manjesh, Mitchee, Kyle, Haoxiang Hu

The schedule document should now have more details and team members have been assigned responsibilities. This must be clearly documented. All versions including previous versions are now available on your GitHub repo.		
Reviewed Client meeting Feedback. Revised Use Cases to have more detail.	July 10,2021	Mitchee, Manisha, Kyle
Created New Use Case Sequence Diagrams	July 11, 2021	Mitchee, Manisha, Haoxiang Hu
Implemented User and UserDataBase class. Completed User Junit Testing (17/17)	July 19, 2021	Kyle
Implemented Admin, AdminGUI, and AdminInterface Classes. AdminGUI finished but some functions aren't working correctly. Specifically, when adding a new user to the UserDataBase. After entering a non-existent username, when trying to add a password, first name, or last name, the program throws an out of bounds exception.	July 20, 2021	Kyle
Implemented Multi-threaded server and client	July 20, 2021	Manjesh
Finished Admin GUI and fixed issue where new User couldn't be made.	July 21, 2021	Kyle
Updated User Class to accommodate for chatroom functionality.	July 21, 2021	Kyle, Mitchee, Haoxiang Hu
Final Submission	July 26, 2021
